

6-18-6 S, Zn Starter

Monty's 6-18-6, 1S is a starter designed to get the seed out of the ground quickly to maximize a plant's development. Consider the advantages:

- 100% orthophosphate
- 6-18-6 with 1% Sulfur and .05% Zinc
- Helps address stress earlier in the season leading to higher yields
- Orthophosphate is immediately available for a quicker start
- Convenient package of nutrients allows for fewer mixing issues and more value
- Can be applied as a starter in furrow, or foliar applied on corn, beans, and other crops
- Can be applied with Liquid Nitrogen*

~ THE KEY TO SUCCESS IS ORTHOPHOSPHATE! ~

Orthophosphate is the most efficient form of phosphate, while a polyphosphate can reduce efficiency by as much as 20%.
Visit YouTube.com/Montysplantfood for more information.

May also be foliar applied at 2-4 quarts during early growth or with herbicide application!

ACTIVE INGREDIENTS

Total Nitrogen (N)	6%
Available Phosphate (P ₂ O ₅)	18%
Soluble Potash (K ₂ O)	6%
Sulfur (S)	1%
Zinc (Zn)	0.05%

“ My growers are looking for ease of use with the greatest efficiency. This package allows greater ROI and flexibility both as a starter and foliar – this is what growers are looking for. ”

Warren Kearns, Monty's Regional Sales Representative

RECOMMENDED APPLICATIONS

At planting: 3-5 gallons per acre for maximum efficiency.
Early growth or with herbicides: Foliar apply 2-4 quarts.
Available in 275 gallon totes and bulk.

RECOMMENDED MIXING RATES

Avail® Rate: 0.5 gallons per 99.5 gallons or 0.5% of the total tank mix.
(Example: 4000 gallons of 6-18-6,1S = 20 gallons of Avail). **MLC Rate:** 8 oz of MLC/gallon of fertilizer. (4000 gallons x 8 oz = 250 gallons of MLC).

* The addition of a compatibility agent may be required when mixing with Liquid Nitrogen or Potassium Carbonate at a high ratio. Monty's recommends administering a jar test prior to mixing. Contact your sales representative or dealer for more information. Avail is a registered trademark of Verdesian Life Sciences, LLC.
