**Net Weight: 5.64 oz (160 grams)**

**Multiplicity is a unique package of microbial strains designed to promote early root development, fix nitrogen, and make phosphorus available – throughout the growing season.**

**APPLICATION INSTRUCTIONS.** Multiplicity should be applied at the rate of one (1) teaspoon per acre. Mix the required number of teaspoons of Multiplicity in one gallon of water. For example: to treat 25 acres, mix 25 teaspoons of Multiplicity in one gallon of water. After mixing, add to your tank. Multiplicity is tank-mix flexible with most agricultural products, and can be used as a pre-plant or pre-emergence soil spray, applied in furrow or foliar applied with chemicals and/or fertilizers. For foliar applications, final dilution rate should be 10-20 gallons of liquid per acre. For application through irrigation systems, contact your Monty's representative for more information.

**STORAGE AND HANDLING.** Store in a cool, dry place. Keep container closed when not in use. Do not store in direct sunlight. Do not exceed 100°. Do not allow to freeze. Do not swallow. Avoid breathing dust. Avoid contact with eyes, open sores or cuts. Wash exposed skin thoroughly after use. Keep out of reach of children and pets. Refer to the SDS for other safety and handling information.

**LIMITED WARRANTY.** Monty's warrants that this product meets its manufacturing specifications. If it does not, Monty's will, at its option, replace the product or refund the purchase price. In no event shall Monty's be liable for special, incidental or consequential damages or for damages in the nature of penalties. Monty's shall not be liable in any way for claims resulting from any use of this product which is not in strict accordance with all directions, cautions and warnings on the label or labels.

Use within 2 years of date of manufacture below.
